Customer Reviews

A great book covering every major aircraft up until 1996. Every page describes a different aircraft with a colour photo and details include all the specifications and country of manufacture. A great book for any aviation enthusiast. All information is categorized into Civil Aircraft, Prop aircraft, Business aircraft (includes price), and Helicopters.

This book is great but does not contain all aircraft plus it is getting outdated quickly. It has an easy to read format!

This is one of the best information source's for multiple planes in one handy book. Lots of information for lots of different pictures and a great color photo for each aircraft!!! One of my favorite little books with A LOT of information. Good going!!!
