Home At The Tree Of Life

Synopsis

HoMe at the Tree of Life is a groundbreaking book that sheds light on the mysteries of consciousness, life and death, and the underlying causes of physical and mental conditions. It presents four people's extraordinary journeys of self-discovery and healing from severe disorders without the use of medications. Dr. Gabor's pioneering techniques for exploring the subconscious and superconscious levels of the mind helped her clients to open new and unexpected doors into the fascinating realms of past lives and the afterlife, and to gain access to the universe where all souls are originated from (referred to as Home in this book) and to The Source of Life. In this book you will find answers to questions such as: * Who are we? * Where do we come from? What does that universe look like? * What is our purpose on Earth? Why is there suffering on Earth? * What are diseases and how can we heal ourselves? * What or who is The Source or God and how can we access God? * What is the difference between the soul and spirit? * Do we have soul mates? Do we have Spiritual Guides? * Where does the increased number of souls come from? * What is the future of our planet?" This is a brilliant book. Not only is it a therapeutic work that is infinitely helpful in showing you how to heal and remove significant life obstacles, but it is also a book of cosmic wisdom, the proportions of which give you answers to the most important issues of human existence." -Marilyn Gordon, B.C.Ht and author of Realize your Greatness" Dr. Gabor's book is one of the most honest books on healing, reincarnation and the afterlife." -Theodoros Kousouli, D.C., C.Ht. "This enlightening book is an inspiration to all who seek eternal truth and purpose. If you enjoyed the books written by psychiatrist Brian Weiss, M.D. and psychologist Michael Newton, Ph.D. you will love this book!" -John Sanders, Psy.D.t, C.Ht. Dr. Gabor switched from dentistry to hypnotherapy and is helping people on a much deeper level than just cavities. Delving into the subconscious, which as she explains, Dr. Gabor can help her clients go the source of their addictions, depression and suicidal thoughts. Who knew that you can be cured without drugs and endless therapy, apparently itâ™s the subconscious and super-conscious that hold the answers to our problems. What I learned from the book is that our conscious minds are a collection of learned behaviors and beliefs which constitute the ego. This is the part of us that deals with our material, every day lives, yet it is illusionary because the material world is not our true Home. As we live our material lives, we forget that we are actually spirits, pieces of the Prime Creator (Chi energy), and that we build physical bodies to put ourselves through tests in order to learn and grow as spirits. As we grow, we in turn grow the Creator. How we grow is by being positive and by helping others. Say for instance you loved to cook (I canâ™t imagine it myself). By following your bliss (as Joseph Campbell says), you become a great cook, finding fulfillment and happiness, and you can feed others making them happy, and then maybe teach others the art of cooking so they can both feed themselves, and make a living, bringing them happiness. You can apply this scenario to anything and get the same result. A lot of happy fulfilled people, and when everyone is happy, the energy of the Earth goes up and in response there is less disease, and longer life spans for everyone. But, as Dr. Gabor explains, there are lower levels of life who donâ™t want the energy of the earth to rise because then they canâ™t control us through fear, disease, war, etc.
