Kaplan ACT 2016 Strategies, Practice And Review With 6 Practice Tests: Book + Online + DVD (Kaplan Test Prep)

Synopsis

The essential, comprehensive ACT guide from Kaplan, leader in test prep for more than 75 years, provides proven test-taking strategies, realistic practice questions and tests, detailed answer explanations, and video tutorials so you score higher on test day "guaranteed. Last year, more than 1.7 million high school students took the ACT. Despite the popularity of the ACT, only one in four students met or surpassed college readiness benchmarks in all four ACT subjects (Math, Reading, English, and Science). With college becoming more competitive, it is more important than ever for students to get the preparation they need to score high on the ACT. Kaplan's ACT 2016 is completely revised for the updated ACT and covers every concept tested. It provides you with exactly what you need to know to score higher on this crucial exam. This powerful study guide includes:

- * 6 full-length practice tests with detailed answer explanations
- * An online center with additional practice questions, video tutorials, and more!
- * DVD with 12 video tutorials from top Kaplan instructors
- * Tips and strategies for scoring higher from expert Kaplan ACT instructors and students who got a perfect score on the exam

This new edition features a customized study schedule based on the results of your individual diagnostic test results, so it is geared specifically for you. Study with Kaplan's ACT 2016 and you will score higher "guaranteed."

This book is helpful but these are not actual ACT tests. As far as I know, only the Peterson's book

contains real ACT tests. Also, this book claims to have 6 practice tests, but only three are in the book. You have to go online for the other three.

I've been tutoring the ACT for about eight years. Kaplan's ACT guide, like its previous editions, provides basic advice for the test, but fails to deliver by a wide margin on its claim that it's "all you need to get ready for test day."¹ The book doesn't cover many English and Math concepts that will be tested, and those it does cover often do not offer enough practice for students to become proficient. Remedy: get books that focus on just one section of the ACT if you want in depth coverage and more practice.² The practice question and test realism is not great. Remedy: practice with REAL ACT tests that are published by the ACT, not those written by third-party companies. Real ACT questions are generally harder, more complex, and most importantly, more reliable in terms of duplicating what you'll face on test day.³ The book offers one way to look at Science and Reading questions, but I find that students need to experiment with technique in these sections to find what works best for them. Remedy: be willing to use trial and error to find methods that work best for you. Overall, I'd urge serious students to look beyond this book and to particularly analyze real ACT tests, which are much closer to the real thing than the ones in Kaplan books.

I bought this book specifically to get information and strategies for the new format essay. The first thing I saw in that section was wrong: they said the essay is 30 minutes when in fact it is 40 minutes. As a result, I am not inclined to trust the material in this book, although in fairness I haven't reviewed the rest of it. I am considering returning it and waiting for something more reliable.

First time he took the ACT he scored 24 which neither of us were happy with. So I gave him this book. He worked through it and took two of the practice tests. He scored 31 the next time and it has completely changed his college outlook. Definitely recommended. This could quite possibly be some of the best money I've ever spent.

Easy to navigate with great study tips, content review, and practice tests. Practice test answers are not always super helpful, but the book is very helpful all-around.

Great for practice tests and preparation! This appears almost identical to my 2012 edition, so save your money and buy an older book.

This has been very helpful for my daughter. Lots of test taking tips, strategies and practice. Thanks for the quick delivery.

I like it. Practice tests were different and it helped me a lot with its great technique.
