Customer Reviews

we all need to do the exercise and we all need to workout or abs to stay fit and look good in this world. but sometimes its really tough to know the right process or very difficult to hire a coach as our pocket will not support it. thanks to the author you consider now you have a personnel coach with you. this book will give you all the directions it can give and will let you know what are the ways you can stay fit.

We are all busy people. What I like about this book is that the exercises are in short duration of one to fifteen minutes. This is great because I can perform the exercises during my lunchbreak. The seven exercises are easy to follow and effective. A must have book in your library if you are fitness conscious, especially if you want to have great looking abs. Good job, Tyrone.

This is one of the best and simplest exercise book I have ever read. No confusing methods and techniques. All time greats. You actually are given a list of exercise for you to follow. Pro: It has a lot of great information for people who are new to exercise especially. Very Easy to read. The split into different chapters you can read without having to read the whole book was a smart choice. Simple programs. Cons: I wish there is more for me to read. That's all, really. It is really interesting and useful. I'm not going to claim that the book is perfect or earth-shattering or anything like that. However, I definitely find it entertaining to read all the stuff and yet practical. I've also benefited from some of his recommendations which I will recommend to my younger brother who is still looking for a 'perfect' exercise routine and programs. Thumbs UP!

It has always been difficult to get that flat tummy that almost every lady out there desires. But after reading this book, seems like it's not that hard after all. Thank you for the 7 short and simple exercises detailed in this book, now achieving that washboard abs doesn't seem like too daunting a task for busy professionals anymore! I am now diligently following your exercise regime everyday and hope to see some good results soon.

Easy to follow instructions for the workouts. Great for people like me who has no stamina and time for long strenuous exercises.
