Social Psychology

Synopsis

Distinguished by its current-events emphasis, the aim to bring the outside world into the field of social psychology, strong diversity coverage, and engaging connections drawn between social psychology and everyday life, *SOCIAL PSYCHOLOGY*, Ninth Edition, remains one of the most scholarly and well-written books in its field. Integrating classic and contemporary research, the book also includes comprehensive coverage of social cognition and evolutionary psychology, and features authoritative material on social psychology and the law. Coverage of culture and diversity is integrated into every chapter by Hazel Rose Markus, a leader and respected researcher in the study of cultural psychology. Available with InfoTrac Student Collections <http://goengage.com/infotrac>.

Customer Reviews

System overload - tons of information compacted into this book. The reading was interesting and filled with easy to understand examples - there's just so much relevant information to absorb, so it was a little daunting and overwhelming.

Most textbooks are boring, still, this one really caught my attention. I got this book from a friend who was studying psychology and I really got into the textbook. It is profound but clear. Abundant in information, but yet, not complicated. I really liked it! It can really teach you the grounds of social psychology if your up to it. I would highly recommend this to my fellow friends too!

The binding on the book is loose and both the cover and back cover are about to come off. There's also some writing and some rips in the actual textbook. It's not unusable it still works but it's just frail.

This book is amazing! Not the content that is. Since it's the newest edition, I received it brand new and I'm still excited that I got to rent a new hardcover textbook for half its price. The content of the book is readable. The authors give lots of examples and it's easy to understand. No flaws except the fact that I had to buy a textbook for a course I'm taking which is unrelated to the book itself.

Spent so much money on a bunch of loose papers. I thought when I paid for an expensive book, I would be getting it binder together and an actual book. NOPE. It's loose papers and now I have no use for it. WASTE OF MONEY. I'm already a broke college student, I don't need this hassle.

I needed this book for my Social Psychology class is so far it's been working for me when I take quizzes and understanding the lessons.

Great condition, can't even tell it's a rental...not to mention I love the fact that it's an easy read.

Although i was skeptical about renting a textbook, it has lived up to the condition promises.
